The New and Improved 2nd Edition! 3/9/2015 Let's see what some readers had to say... "With cases of being inattentive, restless, impulsive, and many other rough traits this condition might turn you into, there is still hope that you could be a person of use rather than a destruction to society. This book is a hit! "-Teddy O. "There's hope and support here for ADHD sufferers and their loved ones." -Rhonda B. "This book has so much great information about symptoms, behaviors, treatments, and even how to parent a child with ADHD that I believe this is an excellent resource for anyone dealing with this situation in their life." -Amy ADHD Can Also Be An ADVANTAGE?! Do you really know what ADHD is? What if I told you ADHD doesn't have to be characterized as a disorder? What if I told you ADHD can actually be used to one's advantage? The topic of ADHD (attention deficit hyperactivity disorder) has been thrown around a lot recently. Unfortunately, it usually has a negative connotation attached to it. If one is already diagnosed with ADHD, why not use it to one's benefit? Time to open up your eyes to a new perspective! In This Book You Will Learn...

- Understanding what ADHD is all about
- The different types of treatments for ADHD
- The negatives and positives (yes, positives) of ADHD
- And much, much more!

I never felt like the diagnosis of ADHD described my child very well

By Game_Guru

I never felt like the diagnosis of ADHD described my child very well. It seems like his problems with every day functioning and social interaction were just to exhausting and extreme. I never knew if I should be strict and firm or show him extra patience and more compassion, but one thing was for sure, nothing seemed to make it better or help me understand him any better-until I read this book. This book really gives you a framework for how to look at your child and better understand why ADHD can be so all-consuming and affect so many areas of you and your child's life. I would highly recommend this book for anyone struggling to understand ADHD better and help their child with ADHD. If you feel like things are so bad that you might be losing your relationship with your child this book WILL help. It's also a great everything you need to

know guide even if your experience with ADHD isn't as severe as mine has been.

Truly steady helper for thriving with ADHD!

By Verna

Truly steady helper for thriving with ADHD! It was fascinating getting some answers concerning the unmistakable sorts of ADHD and organization procedures to adjust to them! I have an inclination that I can take what I understood in this book and use it to partner better with ADHD. Guidebook into adopting and creating strategies for your own, and a book to share with those who live their lives trying their best to cope you! I would highly recommend this book for anyone struggling to understand ADHD better and help their child with ADHD. If you feel like things are so bad that you might be losing your relationship with your child this book WILL help.

I have ADHD and it's great! Definitely a Mental Advantage!

By Ken Lee

Somebody from work told me I have ADHD and I decided to get this book....

Wow did it blow my mind! I always thought only kids had ADHD, but adults can also have it too!

What I really love about this book is they go into detail on what triggers ADHD and what you can do to 'treat' it with natural treatments.

What I didn't like it is the prescription medicines that has terrible side effects, that is why it's great they put the natural treatments in the book just in case you don't like the side effects.

Also I was reading the book, I really do have the characteristics of someone with an ADHD, kinda made me feel bad but towards the end I am very glad to have it. That is because greats like Thomas Edison had ADHD and positive traits of ADHD outweighs the negative ones!

Grab this book if you want to feel better about your ADHD!
