Yeah, on the internet e-book [Afrika Korps \(Images Of War\) By Ian Baxter](#) is a type of digital e-book that you could get in the web link download supplied.

# **AFRIKA KORPS (IMAGES OF WAR) BY IAN BAXTER PDF**

Afrika Korps is an illustrated record of Field-Marshal Erwin Rommel and his desert troops that fought in North Africa against British and Commonwealth forces between 1941 and 1943. Using previously rare and unpublished photographs, many of which have come from the albums of individuals who took part in the desert campaign, it presents a unique visual account of the famous Afrika-Korps' operations and equipment. Thanks to an informative caption with every photograph Afrika Korps vividly portrays how the German Army fought across the uncharted and forbidding desert wilderness of North Africa.

Throughout the book it examines how Rommel and his Afrika Korps were so successful and includes an analysis of desert war tactics which Rommel himself had indoctrinated. These tactics quickly won the Afrika-Korps a string of victories between 1941 and 1942.

The photographs that accompany the book are a fascinating collection that depicts life in the Afrika-Korps, as seen through the lens of the ordinary soldier.

Interesting but not Outstanding

By Mr. Truthteller

This book contains an interesting assortment of images but is flawed by its attempt to provide previously unpublished photos. It would have been better to have a mixture of primarily new with a few more commonly seen photos mixed in to provide a well-rounded perspective of the subject matter.

This defect is glaringly present in the chapter on Rommel. The chapter does contain several photos of Rommel I have not seen before but lacks photos on important aspects of his time in Africa. For example, there is no photo of Rommel's Storch plane that he famously used to get a better perspective on how battles were going. Instead, we get a picture of a sample, grounded Storch plane with a comment that they were commonly used in Africa, but no comment that Rommel ever came near one. In addition, there is no photo of Rommel's half-track, Greif, that he also used to travel around in on the battlefield. We do get some rare photos of Rommel in and around his staff car, but the effect is not the same.

As with other books in this series, the general subject matter is broken into chapters chronologically. Each chapter contains a very general introduction of a few pages, followed by the photographs, which are all captioned.

Good, but not great...

By Ozark Trail Outrider

It pains me to not give an Ian Baxter work 5 stars. I generally enjoy his works and eagerly collect new

volumes as the opportunity presents itself.

Afrika Korps is a solid work packed with photos. And yes there are many that have not been published before. But...overall, they just lacked some punch. Sometimes there's a reason why a picture hasn't been published before...and I think these are the kind you don't put in your photo album, because you have better ones.

That said, you can't go wrong owning another book of Afrika Korps pictures. And yes, there are some good details in this book. I particularly liked the pictures of Rommel working over his maps. Clearly these are propaganda, but they were something different. I was also intrigued by one of Rommel's orderlies who appeared to be wearing the cuffband of the Grossdeutschland Division. This is quite an oddity and may in fact be a picture that doesn't belong in this particular tome.

So should you run out and buy this book?? If you are a hard core studen of the Afrika Korps and Wehrmacht...absolutely. If you are like me, you can't own enough books on the subject. And truthfully, there is enough chronology of the North African campaign thrown into this book to make a resonably good book for someone just learning about the Afrika Korps.

So 4 stars it is. Heia Safari!!!

some good photos but...

By illusion buster

This book has some good photos and captions but for me it doesn't have enough tank pictures and some of the photos are too tiny or poorly focused. For photos I suggest passing over this book and getting something better like Concord's Panzers in North Africa#7043 or Armor of the Deutsches Afrikaorps #7021. Panzers in the Desert by Bruce Quarrie is also very good you can't go wrong with any one of these 3 books they have many excellent photo's and they are all moderately priced.
