the rubric and the matrix

By Ruisu

Thoroughly absurd of course to be asked about a discursive account of traditional Arabic poetics whether it includes violence or sexual content, or how (in which person) it is narrated.

I guess that matrices or rubrics for fiction got misapplied here?

Outstanding comments on Arabic world view

By MarthaBelle

Interest in world poetry drew me to this overview of Arabic poetry from medieval to contemporary. I'm greatly impressed with background info on Arabic culture and outlook on life. How many Arabs today associate the words "new" and "innovate" with evil?

Stunningly Relevant

By John Michael Albert

If I were teaching a class in contemporary American poetics, I would require every student to own and study a copy of this book. There is nothing Adonis says about Arabic poetics across the centuries that cannot be transferred to the history of thought about English poetry. I was stunned by the relevance of his comments to my own experience of English poetry since the 7th century, right down to the various ideas that have contended with each other throughout the 20th century and into the 21st. Add to that the fact that he is both systematic and eloquent and you have a keeper for your library, to sit on the shelf next to Aristotle, Horace, Longinus, Sidney, Coleridge/Wordsworth, and all the rest.
