The Beatles wrote and recorded more than 300 songs in their spectacular 10-year career. This book gives you an in-depth look at all the intimate details about each one, including a complete list of every song ever written or recorded by the Beatles and thorough analysis of the meanings and circumstances surrounding the writing and recording of each song. All of the customary song specifications are included (year, recording/release dates, album names, genre, length, label, writers, producers, personnel, instruments played, etc), but the heart of the book details the Beatles' lyrical inspirations, collaborative efforts, the actual recording session drama and what occurred behind closed doors. It delves into the effect of the politics of the day on the boys' music and lifestyle, the alleged (and sometimes admitted) drug references in their music and writings, the critical reception of the music and, most importantly, the sometimes controversial relationship between the Beatles themselves as they became the most popular musical group in history.
