The text is published in full color and contains striking sailing photography from well-known photographer Billy Black, and world-class illustrations from award-winning illustrator Peter Bull. One of the text's most distinguishing features is its user friendly "spreads" in which instructional topics are self-contained on opposing pages throughout the book. It is the official course material

By Douglas Brown

Easy to read, well illustrated. It doesn't really matter whether you want to read it, if you are pursuing ASA certification! Otherwise it's a fairly useful reference although it doesn't cover much new ground. An enormous amount material appears to have been lifted directly from Chapman's, but perhaps explained in a slightly more user-friendly manner.

Helpful and readable

By Ladyb

Thank goodness. Clear and well illustrate guide to cruising. Often cover same material as the 102 book "Cruising Fundamentals" but this book is vastly better written and contains clear illustrations.

New to sailing? Buy this book after you purchase "Sailing Made Easy", but before any other book out there.

By P. Zenk

The ASA manual for its ASA 103 sailing course. As with all ASA books, packed with relevant information. Tip for those new to sailing who would like to learn more about the basics, cruising, and possibly live-aboard....I would buy the three ASA books before any other. Sailing Made Easy for basic sailing (ASA

Keelboard 101 manual), Coastal Cruising Made Easy for basic cruising instruction and information (ASA 103 manual), and Bareboat Cruising Made Easy for more advanced cruising (ASA 104 manual). Wait to purchase all of the other sailing books out there until you read these.
