Stuff they don't teach you in high school

By Review101

Needed it for a class that I was dreading to have to take my senior year...but I learned a lot about some stuff that I thought I knew about insurance, banking, finance...stuff they don't teach you in high school.

Great book, easy to read, good to return for some money

By Maggie

I had to take this class as a home study and just got the book from Amazon instead for a fraction of the price. The book is used but it wasn't in any terrible condition. It was almost like brand new.

After having it for 3-4 months, I was able to return it for almost half the money that I paid for it, so that is really awesome!
