By Kelei Curry

This review is to let you know even if you are a student still in school or an adult needing to understand the process of using Google Drive, this is the book to use. The ease of each chapter is a basic step by step how to

and guide to allow you to complete a hands on approach and to retain what you have just performed. I recommend this to anyone whom could be a little apprehensive in trying out something different from what they are accustomed to. The help you will obtain from using this textbook can be explained to your students or family member struggling to get with the program, if you know what I mean.

Money well spent. Congratulations George on a wonderful put together handbook on the basics and essentials for Google Drive.
