Not the ordinary instruction manual

By M. Luhmann

I loved the layout of this book - very fast reading and great information. I even got my husband to read it and he HATES to read! The pictures are great and the overall feel of the book does not make it seem like your typical instruction manual. I would recommend to everyone!

Definitely one of the best books of it's kind I've gotten the opporunity to read. Loved the pictures - and the

Great For Men and Women

By Scott

This book is great for those that cannot grasp an understanding for the opposite sex. Updated and different from the modest and older books, this one is very straight forward while being fun and easy to read. Both Men and Women can benefit from this book. Great for couples, even better for the single life. It cannot be beat for the price.
