By Stephen Roerson

Probably the second worst textbook a college has forced me to have to use. The Cengage product (purchased separately) that accompanies the questions in the book is an unapologetic cash grab full of poorly worded

questions, incorrect answers to its questions, and is apparently the torture of choice that apathetic instructors pass off to the students whilst shrugging their shoulders when complaints arise. Do **not** expect a good experience with this book, and potentially do **not** expect a good experience in the classroom if your college was greedy enough to make you experience this or the Cengage product while they line their pockets on your debt.
