Good Book to shop and compare products

By Calrubby

I had two of Ms. Begoun's books...one for hair products and the other for just about everything. She proves that you don't have to spend a million dollars to look like you did. I saw her on TV and loved her attitude about buying and using products that are just as good as the more expensive ones and work just as good, if not better. I've recently given this book to a friend and she's told me that she really likes it, too.
