No chords for the left hand

By CenVillager

This book is a major disappointment. It failed to show chords for the left hand.

It does show treble and bass clefs, but only displays the chords for the right hand. I can't imagine why the author failed to show the left hand chords on the bass clefs in the images.

I need the left hand's chords for my keyboard. That's why I ordered the book.

Fortunately I bought it from Amazon and Amazon provided me with a postage-paid return label for full credit.
