## Review

- "I love this book! So easy to read and informal in its approach yet covers all areas of Energy Healing and Following our Divine Guidance. The author starts with the principle that Thoughts create our Reality and relates each point to the Bible showing the importance and relevance of believing in our Creator. The book encourages you to find your true Gift from God - which is crucial to success. When you follow your Divine path success comes so much more easily and Andrian continues with this theme as he covers Forgiveness, Gratitude, Law of Attraction, Loving yourself and Giving. Some interesting and well chosen video clips along the way add to the input and all in all a very positive book about the power of energy. Well recommended. Thank you." - Deborah Jane Sutton
- "I finished reading the book and I really enjoyed it very much.

I'm so grateful I got this book. It contains a lots of practical advice how one can turn a negative life into happier, positive and fulfilled life. It's very helpful!

I like a lot the Morning Habits. I myself wake up early at 4:45 am every day to start my day. With the suggestions, I can improve what I am currently doing. I used to read a chapter a day from the book of Proverbs. As if I was reminded to return back to that habit and use it as suggested.

I recommend Andrian Teodoro's book to everybody who want to turn their negative life into a better one." - Jun Pasion

- "Wow, I absolutely loved this book! It is so full of useful information. I am always trying to grow and better myself and this book definitely helped me with that goal. I felt energized, supported, hopeful, and excited as I read through each page because the author has so many positive tips and tools on becoming a

more successful and giving person. The author clearly wants the reader to succeed in all aspects of life. He references several successful people and how they became successful and lists them all out so that the readers can follow in the same footsteps if they choose. I love how the author included actual links in his book that took me to motivational videos so that I could be inspired there as well. There are also results given throughout the book from studies on the different habits of successful/rich people versus unsuccessful/poor people. Those studies on certain habits can teach us a lot right there. This book has a wealth of knowledge in it and I know I will continue to refer to it to stay positive and motivated. I highly recommend it." - Sage Wilcox

From the Author

Hey everyone, I am Andrian and I am the author of this book "The Power of Positive Energy: Powerful Thinking, Powerful Life."

First of all, I would like to thank you for visiting my page.

I've created "The Power of Positive Energy: Powerful Thinking, Powerful Life" knowing that it will help a lot of people undergoing negative thoughts on their minds, and want to change their lives by learning how to cultivate a habit of thinking positively and live a positive life.

Yes, I know sometimes it is very difficult, because there are lots of negative thoughts coming through our minds that seem automatic. Do you know why that is happening? I believe there's always a reason why things are happening, and here in this book, I will show you how to become more positive every day.

First, let me give you an idea. Your thoughts are very powerful. As the Bible says in Proverbs 23:7, "As a man thinks in his heart, so is he."

Meaning, whatever you think about, you will become.

So the question is, "what are we thinking about all day long?"

Or you may ask yourself these questions, "Am I thinking positively? Am I thinking negatively? How would I know? And why is it happening?"

The answer is simple: Your Thought Pattern Is Automatic (either Positive or Negative.)

Yes, you've read that right. The reason why it is sometimes very difficult to think positively is because our mind has been accustomed to think negatively. It seems that this has been passed on to us by different factors like: our environment, our childhood life, the people we associate with, the "words" that come out of our mouth, the books we read, the TV show we watch, the music that we listen to, and many more factors.

Our mind is like a garden, whatever we put into it, we will reap and we will harvest.

If we put positive things into it, in due time we will reap positive rewards.

If we put negative things into it, we will then reap negative consequences.

As the Law of Attraction suggests, "Like attracts like."

Our mind is like a magnet, attracting everything that we attach into it.

For example: In your life, have you ever had an experience when you have thought of a friend or someone you haven't seen for a long time, and then suddenly, after a few days or few minutes, you met them? And then you were a little surprised, and told your friend "Wow, I've just thought of you recently."

Or have you owed someone money, then you hide from him/her, and then suddenly he/she appears in places exactly where you are at?

Yes, because what you think about all day long, you will attract.

That's the power of your mind. It's like pulling in whatever you put into it - like a MAGNET.

And now, here in "The Power of Positive Energy: Powerful Thinking, Powerful Life", I'm gonna help you learn how to become a positive person every day. I'm gonna give you insights and ideas on: how your mind works; how to attract the things that you want; how to have an automatic positive mindset; how to make a habit that could change your entire life; how to be more confident in life; how to motivate yourself every day; how to use the power of prayer to get what you want; how forgiveness can change your life; how gratitude can attract the things that you want; how successful people become successful; and how to live a happy life every day.

My best wish is that you learn a lot from this book, and that it helps you live your life at a higher level. And I'm always here to help you and guide you.

Should you have any comments or suggestions that you would like me to implement or add on this book, I would be very happy to hear that too.

Just simply add your comments and reviews on Amazon, and I would love to keep you posted.

Thanks a lot and 'Have a Very Wonderful Day.'

Enjoy reading. :)
