Gordon* Nonetheless, this publication is described review due to the fact that it is an impressive publication to provide you a lot more opportunity to get experiences and also thoughts. This is straightforward, check out the soft data of the book [The Queen: The Young Royals 2 By S.A. Gordon](#) and also you get it.

THE QUEEN: THE YOUNG ROYALS 2 BY S.A. GORDON PDF

There's an empty seat beside her throne ...

Queen Alexandra Elizabeth Diana is newly crowned and newly single. But, contrary to popular belief, being a monarch doesn't make the dating game any easier. While foreign royals and millionaires may be of a similar social standing, they are woefully inadequate when it comes to winning her heart. Alix needs someone who understands her world and who also sees that behind the crown is a young woman who just wants to fall in love.

But the situation may not be as hopeless as it seems. Someone Alix has known her whole life is secretly in love with her. And, while he may not have the breeding or bank balance expected of the Queen's consort, nothing will stop him from trying to win Alix's heart ...

Sweet with some Heat. Loved it!

By Anita Byars

I received a copy through NetGalley in exchange for a honest review.

This is a story of Queen Alexander of the British monarchy as she looks for love. Alix as she is known by her close friends and family has been alone in her duties for awhile since her Father passed away. She had to take on her duties at a young age due to the death of her mother and although she always knew her place was to rule she had always hoped that she would have had a few years to herself before that happened. Always in the public eye, this story gives you great insight into her thoughts and fears by the nature of her position. Always on guard and suspicious of everybody and their true intentions.

When her brother David gets married she becomes reacquainted with an old school friend of his, Stuart Higworth Boule. She remembers him being very attentive to her during a lunch in his last year of school. Stuart remembers having a huge crush on her and remembered her as the most vivacious, funny smart and beautiful girl he could ever imagine meeting. Now she appeared impatient, very regal, occasionally frosty and tough on the people who loved her most. As time goes by there are many twists and turns as the Queen tries to find a man who will love her, and be able to sacrifice everything he has, to be her consort and love

her forever. I absolutely fell in love with Stuart and his determination, and unyielding love as well as the effort he put in to making Alix his number one priority. The journey to their HEA was sweet, with some heat and above all else heartwarming.

Poorly executed in the love department...

By Rhiannon

The Queen: The Young Royals is the second book in this series and while it's not necessary to read the previous book first, it would help understand some of the backstory with the characters.

I wanted to love this book so much, unfortunately it turned more into a "like/hate" feeling instead. The parts of the first book that I wasn't so thrilled with, were compounded in this book. The love story between the hero and heroine didn't even start until about 80% of the way through the book. While I understand the build up of the story, 80% is extremely excessive and down right annoying if I'm being honest. Not only that but the storyline moved at warp speed, and it made it hard to keep track of the timing of events.

I did really like seeing Alix as not only the strong Queen, but also as a vulnerable woman. At the same time, her vulnerability did have some annoying moments when she'd practically beg people to love her. I loved Stuart but I felt short-changed because I wasn't allowed to watch his relationship with Alix grow and blossom.

Overall, I loved the idea behind watching a family of royals meet and fall in love with their perfect match. However, I thought that the execution was all wrong and the love story that I read this book for came along almost as an after thought.

I received a copy of this book in exchange for my honest opinions

Alix is a queen but looking for love and not really having a lot of luck there ...

By Angel Hatfield

Alix is a queen but looking for love and not really having a lot of luck there in finding it . Then her brother david gets married and Alix finds an old friend there Stuart .Stuart has loved Alix since he was a teen . Could he really win her heart and could he take the back seat and she would always come before him .

I like this story to a degree but Alix just wasn't as strong as I felt she had to be . To me she should have made a decision and stuck with it . It just wasn't what a pictured a queen to be . I know she was young but she knew from a child she would be queen even if it happened before she liked . However i did like Stuart's character quite a bit . The story and plot was pretty good

I received an ARC of this story for an honest review..
