Excellent must have Guide

By Barbara DeOliviera, FNP Student TWU

This book is a Great resource to have. It is organized and very easy to read. It highlights the high yield points that every student and or clinician should know regarding the top 200 most commonly dispensed medications. What was also helpful was the ability to search and review the information based on ranking according to dispensing of the drug, alphabetically or by drug class. I wish I had this guide sooner and I highly recommend it.

BSN Nursing Student Preparing for NCLEX

By Lauren L

This book is a wonderful resource for nurses! It focuses on the main drugs we see in the clinical setting which really helps me remember them! I recommend this for anyone who is struggling with Pharmacology or just needs a to refresh their memory. It will be my main study book for the NCLEX!

Top 200 Drugs Review

By J. Toney

EXCELLENT book. Very easy to maneuver through, direct, to the point, and a excellent source of Current Information at your fingertips!! I highly recommend this book to other Pharmacy Tech Students and possibly other medical professionals that want to learn and access the Top 200 drugs prescribed and have important facts about them at their fingertips. I don't see how this information could be presented Any Easier, and more

accurate!!
