Leonard Stringfield was born in 1920. He was director of CRIFO (Civilian Research, Interplanetary Flying Objects) - one of the world's largest research groups during the mid-50s, and publisher of its newsletter, ORBIT (1953-1957).

He also worked in cooperation with the United States Air Force (1953-1957), investigating and reporting UFO activity, having been assigned a special code number for reporting to the Air Defense Command in Columbus, Ohio.

For over 30 years, Stringfield served in several of the major UFO organizations in a public relations capacity. From 1957 to 1970, he was public relations adviser with the National Investigations Committee on Aerial Phenomena (NICAP). Later on, he was Director of Public Relations and a board member of the Mutual UFO Network (MUFON). He was also a regional investigator for the Center for UFO Studies, directed by Dr. J. Allen Hynek.

Stringfield was an executive with DuBois Chemicals, an international manufacturer. Stringfield retired in 1981 as Director of Public Relations and Marketing Services for DuBois Chemicals, a division of Chemed Corp., after 31 years service with the company.

From 1967-1968 he served as Early Warning Coordinator for the University of Colorado UFO Project, screening UFO reports for possible scientific study.

Stringfield was also an advisor to Sir Eric Gairy, former Prime Minister of Grenada, 1977-78, during his efforts to establish a UFO research agency within the framework of the United Nations.

Stringfield passed away in 1994, leaving a string of fascinating publications behind, one of which is "UFO Crash Retrievals: The Inner Sanctum - Status Report VI," written not long before his death. It is filled with interesting details about a number of major UFO cases, including Roswell and Kecksburg.

Inside "Ufology's Hot Kitchen"

By Johns

Dated June 1991, Leonard Stringfield's sixth Status Report is by far the longest, at 140 pages, but I prefer the first three ones, as they just had details of various reports. With this sixth one, he includes details of other people's findings. He begins by recounting his experience when he delivered his first speech at a MUFON conference in 1978. J. Allen Hynek sat close to the front. A reported CIA official is quoted: "If Stringfield had said certain things about crash and retrievals, Hynek would have taken over." Stringfield states that Hynek demanded names and details from him. (In his book Revelations, Jacques Vallee states that Hynek met Stringfield several times.)

There is more on Roswell. It seems that a B-29 transported the bodies to Fort Worth on 9th July 1947, according to reported eyewitness testimony. As for the bodies, there were "autopsies of midget people with mongoloid heads that were accidentally exposed to high doses of radiation at Los Alamos" and a nurse stated that there were "human experiments for biological and nuclear medicine research." She saw small bodies with deformed heads and limbs and "thought they may have come from Japan after the war." The names Von Braun, Condon, Oppenheimer and Teller are mentioned in connection with this.

The issue of whether bodies associated with the Roswell incident are humans that had been experimented on, or aliens, is not satisfactorily resolved. Another list of names is mentioned: General Groves, Oppenheimer, Bush, von Neumann, von Karman, Steinhoff, LaPaz.

A craft with the same insignia as that on the reported 1964 Socorro craft makes a reappearance, this time near Tong Li Sap, Cambodia, 1972. A US Army Special Operations Group were reportedly engaged in a firefight with the occupants of an identified alien craft. The platoon reportedly happened on a group of aliens sorting human body parts in to large bins and sealing them. The craft reportedly emitted a high pitched hum. The encounter was supposedly reported to a representative of "MAJIC".

Future mind control author Armen Victorian appears in the pages. Also known as Henry Azadehdel, details are presented into his and UFO Crash at Aztec author William Steinman's investigation of Eric Walker, a scientist who reportedly was present at the Kecksburg reported UFO crash. Stringfield also presents Victorian/Azadehdel's interesting investigation into a reported UFO crash in South Africa in May 1989.

There is also an extensive report conducted by the Long Island UFO Network on a reported downing of a UFO at Moriches Bay, Long Island, New York in 1989, including pseudonymous testimony by a supposed scientist who says he discovered the technology on the alien craft to be crystalline-based.

Stringfield also presents details of hoax photos of aliens, including the New Mexico alien with a zipper. Editor of Flying Saucer Review Gordon Creighton stated that Timothy Good considered the photo might be genuine, however Stringfield states, "Facts, however, show that the alien was nothing more than a wax dummy, lying prone under a plexiglas canopy, on exhibition in Montreal, Canada, dating back to 1967."

Consistently entertaining reading, if nothing else.
